KLEEMANN

Your 1st Choice in Lifts

around the world

Let us take you a step forward

Being a reliable and innovative brand, renowned for specialising in unique and customised solutions, KLEEMANN is proud of its projects all around the world.

Through the years, KLEEMANN has developed a wide global network of customers and has fairly gained the position as a most valued lift manufacturer worldwide. KLEEMANN owns manufacturing facilities in Greece, Serbia and China and a wide network of companies around the world.

Thanks to the credibility, special innovative design and flexible and prompt service, as well as the importance to continuous development, KLEEMANN has earned the preference of the market.

For the people in KLEEMANN each project is a chance to go beyond conventional engineering and design!

KLEEMANN customers are unique and so are their projects!

1

Public & Commercial Buildings

International Airport

Riga | LATVIA

Riga International Airport, located 10 km southeast of Riga, is a multiply awarded airport, the largest and busiest in the Baltic States serving flights to over 80 destinations in 30 countries, approximately 4.800.000 passengers and handling 53.540 tons of cargo.

KLEEMANN installed a Hydraulic Panoramic lift, offering service to thousands of travelers.

Hydraulic Panoramic lift

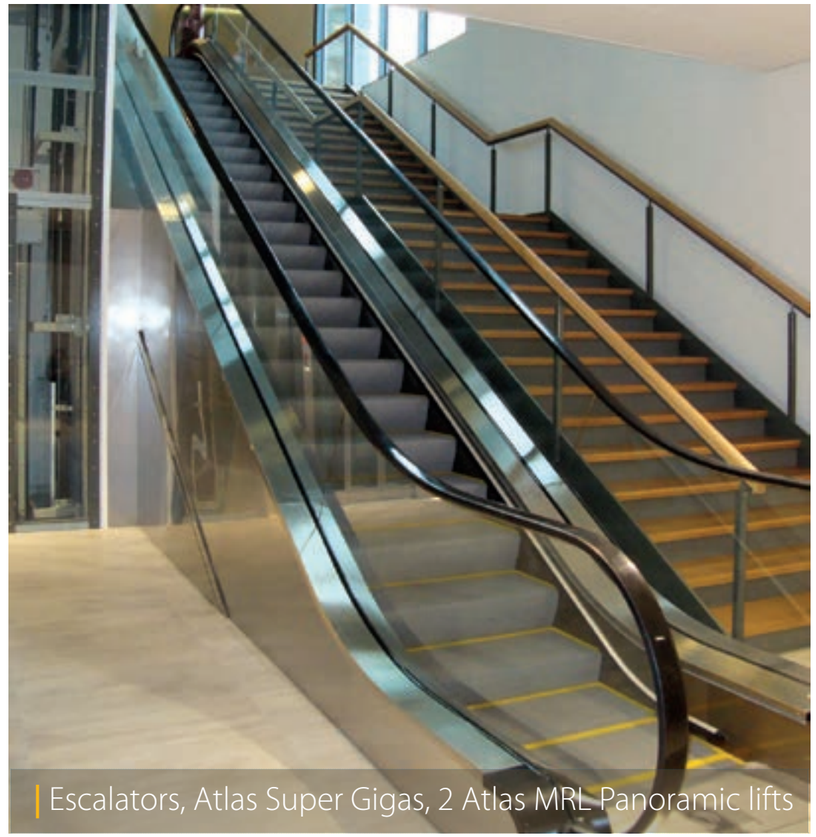

International Airport

Keflavik | ICELAND

Being the largest airport in Iceland and the country's main hub for international transportation, Keflavik International Airport is situated 50 km south-west of Reykjavik, Iceland.
It was built by the US Army during World War II. The renovation of the airport started in 2000 and ended in 2012.

KLEEMANN has installed an Atlas Super Gigas MRL, two Atlas MRL Panoramic lifts and an escalator.

Atlas Gigas lift (1600 kg)

Mary Rose Museum

Portsmouth | UK

The famous and unique Mary Rose Museum has won the Gold Award for Large Visitor Attraction of the Year at the Beautiful South Awards 2014.
The construction has been rather challenging as it was built over the shipwreck, incorporating the vessel itself into the construction. Part of the tour takes place inside the panoramic lift cabin while moving through floors, through a specially crafted one-piece 2,7 meter glass.

KLEEMANN installed two Traction MRL spectators lifts (2000kg) with a panoramic cabin custom-made for the project.

2 Traction MRL Panoramic lifts

Castle Château de Ferrières

Paris | FRANCE

Atlas Basic lift

Art Museum

Talin | ESTONIA

KUMU Art museum, the winner of the "European Museum of the Year Awards" (2008), has received plentiful praise over the years. With 1500 visitors per day and accommodating 400 visitors at once, a safe and quick means of movement between its five floors was required.

The majestic installation of a 10000 kg Hydraulic lift for 133 people was chosen to accommodate the high requirements of this project.

Traction lift in special shaft

Zakynthos Music Theatre

Zante | GREECE

Zakynthos, this southernmost Ionian island in Greece, is also known as the Flower of the East, a name it acquired by the Venetians who used to call it Fiore di Levante, probably because of its incomparable beauty reminding of a blooming flower.
Zakynthos is famous for its vast cultural activity. The locals carry a long history of love for the Arts, especially for music.

KLEEMANN installed a platform with 3 stops for 6m distance in the Zakynthos Music Theatre. The platform is used to facilitate the move through challenging terrain. Its size is 5,6 x 7,7 meters and its rated load is 6 tn.

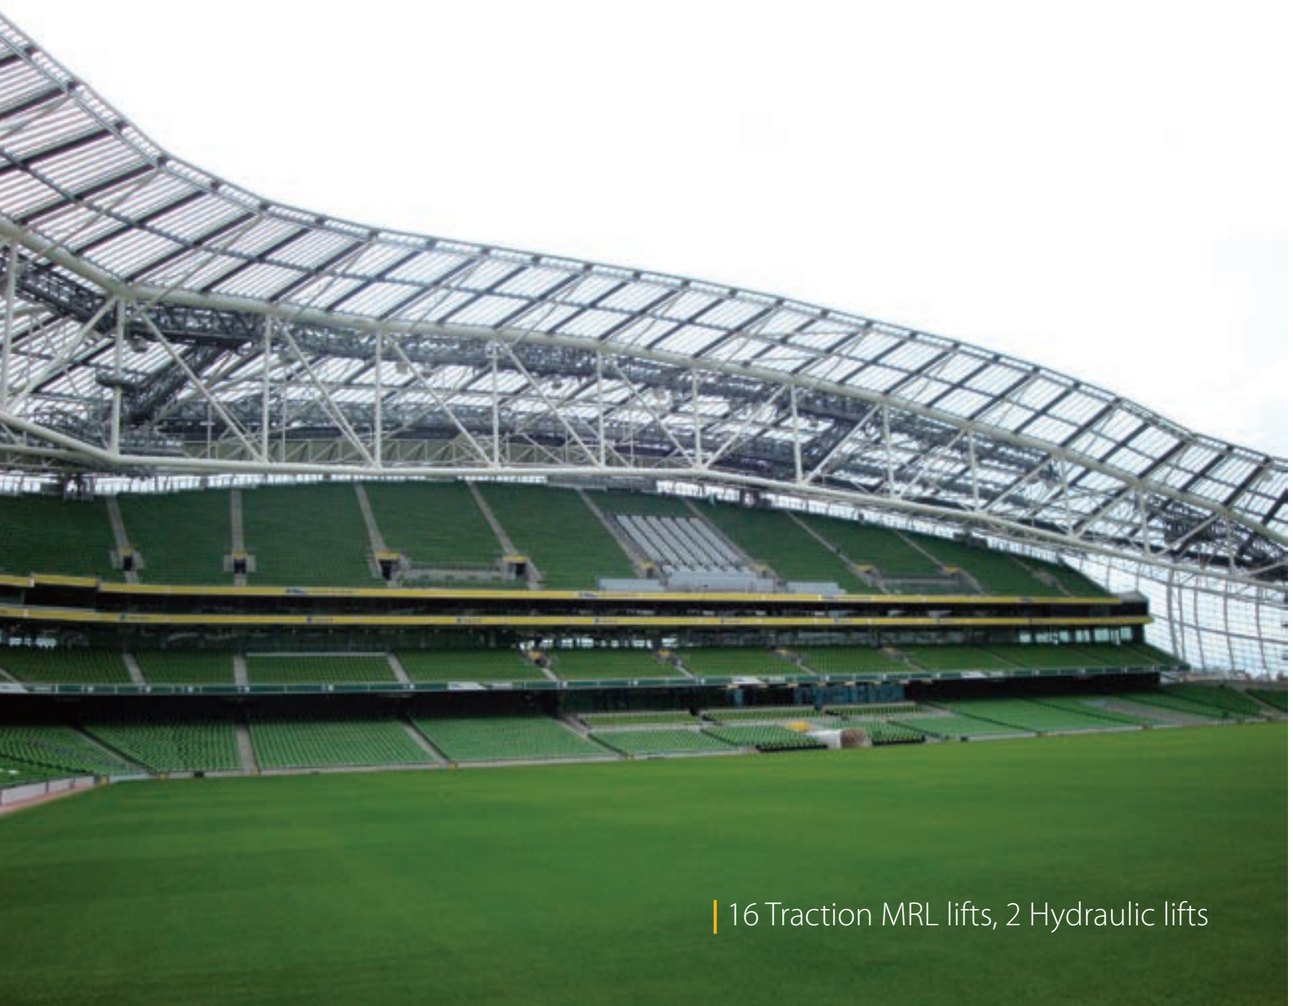

Platform

Aviva Stadium

Dublin | IRELAND

| 16 Traction MRL lifts, 2 Hydraulic lifts

Having won the British Construction Industry award (2011), Elite Stadium is the single UEFA Stadium in Ireland. It is a bowl-shaped construction with four tiers on three sides of the ground and a capacity of over 50.000 seated spectators.

It first operated as an athletics center in 1872, embodying the vision of Henry William Dunlop, an outstanding young athlete who organised the first all Ireland Athletics Championships.

In its old incarnation, Elite Stadium was the oldest sports stadium in Europe.

KLEEMANN installed 16 Traction MRL lifts and 2 Hydraulic lifts to serve the safe mobility needs of the fans.

American Express Brighton Stadium

Brighton | UK

8 Atlas Traction MRL lifts, 1 FlexyLIFT

A football stadium located near the village of Falmer in Brighton and Hove, the AMEX, as it is used to be called, is home to Brighton & Hove Albion F.C.
The stadium's attendance reaches a total of about 30.000 seats.
The stadium features banquet and conference facilities, a nursery school, a teaching space for the University of Brighton, offices, the Club shop, as well as a bar.

KLEEMANN has installed 8 Atlas Traction MRL lifts and 1 FlexyLIFT.

420 Olympic Games Projects

Athens | GREECE

The Olympic Summer Games 2004 took place from 13 to 29 August 2004 in Athens. After the first Olympic Games of the modern era 1896 and the unofficial matches between 1906, it was the second time Athens hosted the Olympic Games.

The preparations and constructions of new stadiums, roads, the Olympic Village, the transformation of the OAKA roof from the famous Spanish architect Calatrava and other projects started in the year 2000.

Among the largest construction projects in Athens was the Athens metro, the Attica highway, the new Airport in Spata and the tram.

On 10 August 2004, the Tuesday before the opening, there was a ticket sales record with 88,317 tickets.

KLEEMANN installed 420 units for the Olympic projects in various spots of the city.

Hydraulic & Traction lifts

Norwich Cathedral

Norfolk | UK

Visitors are inspired by the scale and beauty of the Norwich Cathedral, one of the most complete examples of Romanesque architecture in Europe. The Cathedral survived riots, war, plague and fire to remain standing at the heart of Norwich today.
With 900 years of history, this exquisite building is one of England's greatest Cathedrals attracting visitors from all over Europe.
Its spire's height reaches the 315 ft (96m) and it is the second tallest in UK.

KLEEMANN has installed a Panoramic FlexyLIFT, to serve the needs of tourists and the clergy.

Panoramic FlexyLIFT

University of Cambridge Astrophysics Building

Cambridge | UK

Atlas Traction MRL lift

The University of Cambridge is one of the world's oldest universities and leading academic centres, and a self-governed community of scholars. Its reputation for outstanding academic achievement is known world-wide.

The opening of the new Battcock Centre for Experimental Astrophysics represents a major consolidation of Astronomy, Astrophysics and Cosmology, three of the strongest scientific disciplines of Cambridge.

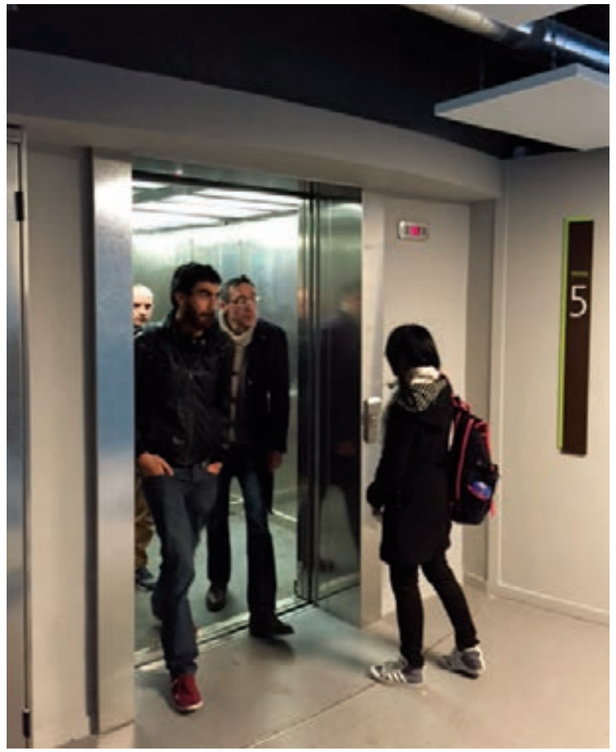

Until five years ago, astronomers, astrophysicists and cosmologists at the Institute of Astronomy, the Cavendish Laboratory and the Department of Applied Mathematics and Theoretical Physics (DAMTP) were significantly geographically separated.

KLEEMANN has installed an Atlas Traction MRL lift.

Green Gold Shopping Mall

Zagreb | CROATIA

Green Gold, located in a business district of Zagreb, is beautifully balancing between being a shopping mall and a hospitality center, offering stores and cafes/restaurants as well as the Double Tree by Hilton, a design luxury hotel. It is the newest prestigious center in Zagreb, covering 15.000 sq m and in development of 118.000 sq m.

KLEEMANN installed 42 units in total, 28 lifts (14 Atlas MRL Traction lifts, 4 Atlas Gigas, 1 Hydraulic, 8 Traction MR lifts) and 14 escalators (10 indoors).

NEXT

Mansfield | UK

While the oldest company in the group has been trading for nearly 150 years, the NEXT brand itself was created in 1982 – at the time a revolutionary retail concept, presenting coordinated collections of own branded womenswear and accessories in boutique-style shopping setting. The brand is considered aspirational yet affordable, with an appealing combination of distinctive style, good quality and value.

NEXT currently features fashion and accessories for men, women and children, as well as a full range of homeware. With more than 500 stores in the UK and Ireland and almost 200 mainly franchised stores around the world, NEXT is a powerful and expanding brand.

KLEEMANN has installed 20 units in various stores around the UK serving public areas, staff areas as well as parking areas.

Hydraulic lift HAI (1000 kg)

Dunnes Stores Network

IRELAND, UK, SPAIN

Ireland's largest and leading retail chain for more than 70 years, with 155 stores throughout the country as well as UK and Spain.
A mix of contemporary fashion, food and stylish homewares. Dunnes Stores began with the vision of a talented man, Ben Dunne.

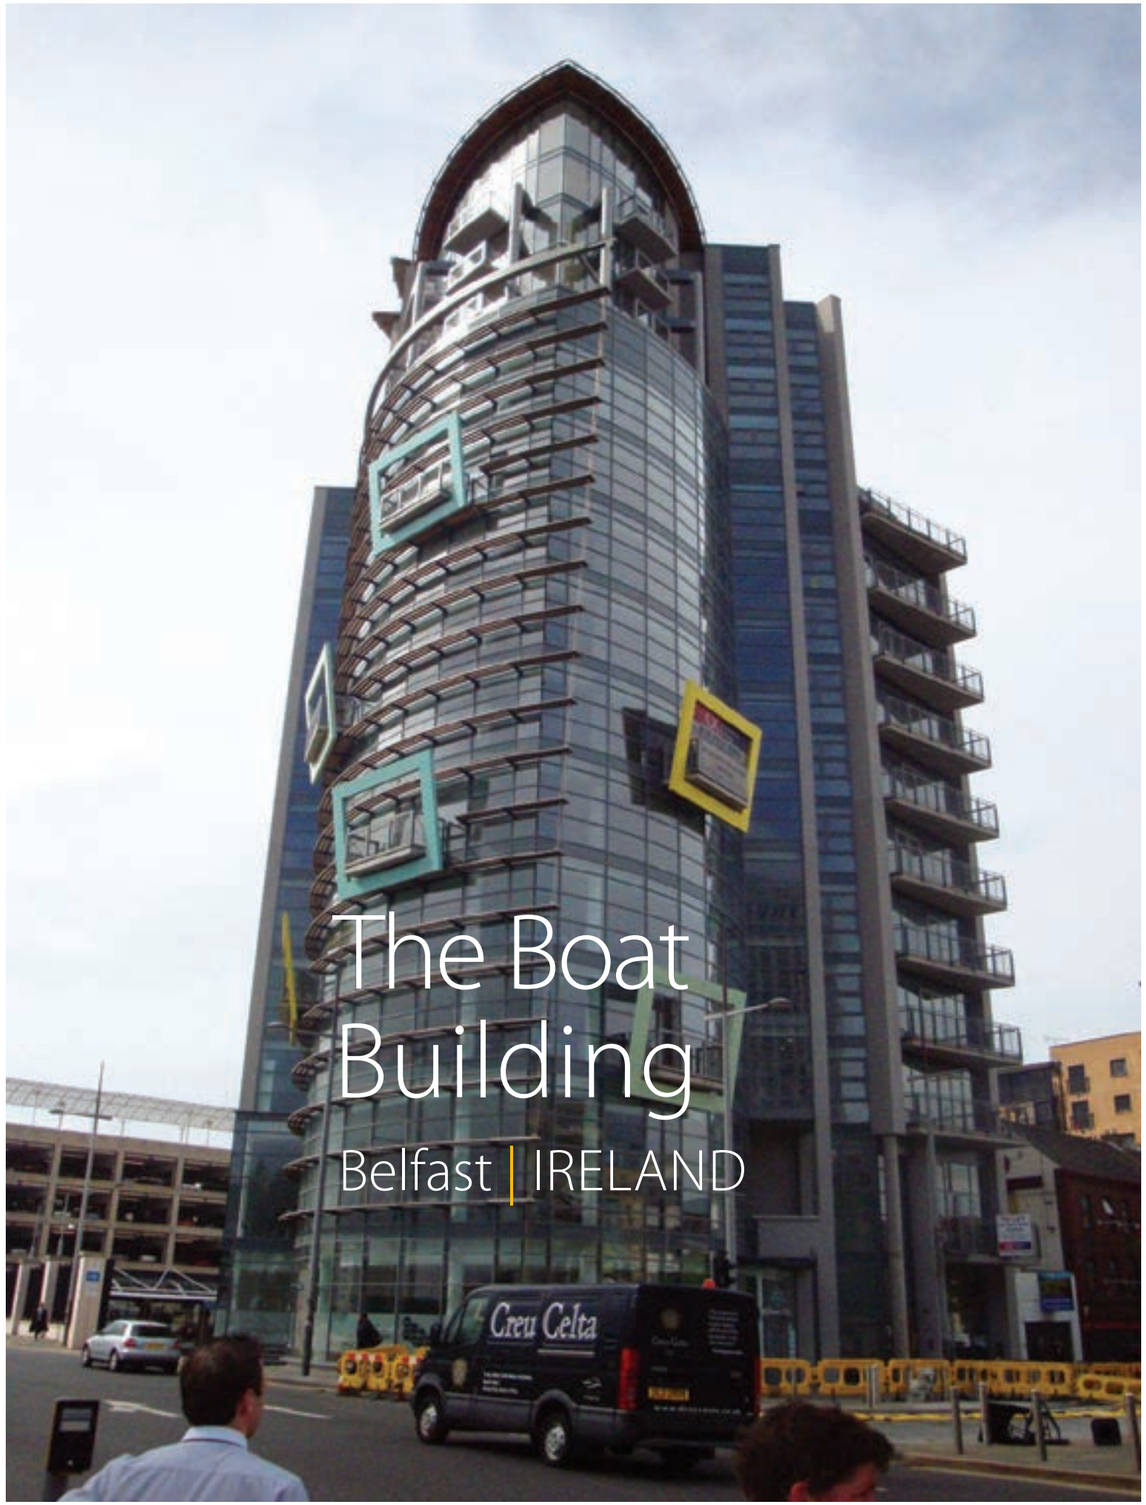

KLEEMANN installed more than 100 Atlas Gigas Traction MRL lifts in various cities in Ireland, UK and Spain.

More than 100 Atlas Gigas Traction MRL lifts

The Boat Building

Belfast | IRELAND

Winner of the 2011 Mixed Use Building of the Year (global LEAF Awards).
"A contemporary landmark building sitting on the edge of the river Lagan, providing a gateway to the city and contributing to its revival" according to the judges.

A "groundbreaking" tower building with spectacular views.

An innovative live / work / leisure building including luxury apartments, offices and bar-restaurant.

One of the tallest structures in Ireland (14 floors - 62 m height).
